

Year 6 Newsletter

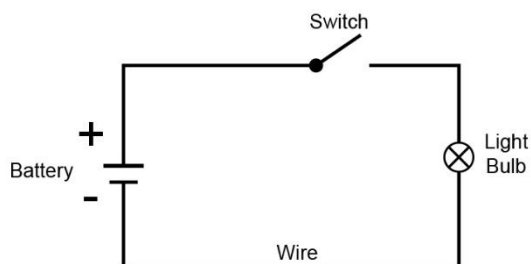

June 2025

Good luck to all those who sat the EDEXCEL exams. The results will be announced in August. There are still the end of year exams, which will take place during the week of 15th – 19th June. Lessons continue as usual, so it is important for the children to attend school every day.

In the English lessons, we will have a unit test and then move on to a new unit in which we will find out about a mythical creature: a Sasquatch. Does it exist or not?

In Maths we will revise most of the work we have done throughout the year: ratio, percentages, area and volume, just to name a few.

In Science we will complete the unit on Forces in air and water, and continue with Electrical Circuits, plus a lot of revision.

In Geography we will continue with planning issues and then transport,

looking into the advantages and disadvantages of each type.

In History we have moved into modern times and will look at fashions in music, clothes and art during the 1960s, 70s, 80s and 90s, as well as learning about some of the famous names of those days.

Spend some time with your children, telling them about what life was like when you, or their grandparents, were growing up. It is very difficult for these children to imagine a life without electronics!

Preparations will be underway for the graduation, which will take place during the last week of term. The pupils all have to produce a speech, which they will read.

As always, if you have any questions or concerns, please feel free to contact Ms Omeash and make an appointment.
